

WORK EXPERIENCE

Cerner Corporation, Manager - Pharmacist Solution Advisor

April 2017 - Present

- Manage team responsibilities, provide clear expectations and follow up to ensure progress and help overcome roadblocks.
- Identify associates and team priorities based on business direction and adjust when needed.
- Identify the right talent to achieve the desired results. Promote and build a diverse cohesive team to accomplish objectives and align associates' skills to fill gaps.
- Provide solution feature and functionality knowledge during the sales process and serve as the domain and industry expert for pharmacy and medication use processes.
- Led and support over 200 medication process engagements for healthcare organizations.
- Prepare and present scripted and unscripted pharmacy solution presentations, demonstrating in-depth knowledge of solution-specific best practices.
- Initiate and maintain client relationships, client presentations, and up-to-date knowledge of industry competitors.
- Support optimization projects of current clients, review current workflows and provide uplift along with educational materials for new functionality.
- Complete and review responses as part of bid submissions or requests for proposals.
- Promote solutions at industry events, trade shows, and regional client meetings.
- Developed and maintained training material on Sharepoint to provide resources to new associates during their onboarding process.
